Glossary.....Glossary-1

## Section I. GENERAL

1. **PURPOSE.** This regulation governs all armistice deployments to Republic of Korea (ROK) air bases (AB(s)) and airfields; and use of ROK facilities at ROK ABs and airfields by United States (U.S.) Forces units not assigned in the ROK. It prescribes the requirements for coordination of armistice deployments to ROK ABs and airfields and the information and support required by the deploying unit.
2. **APPLICABILITY.** This regulation applies to all U.S. Forces deploying aircraft and personnel to ROK ABs and airfields during the armistice.
3. **REFERENCES.** The following are required publications.
  - a. Foreign Clearance Guide. Cited in paragraph 11.
  - b. PACAF Reg 200-10 (PACAF Unit Intelligence Guide). Cited in paragraph 16 (Note).
  - c. PACAF Reg 400-24 (WRM Release Requirements). Cited in subparagraph 14d.
4. **EXPLANATION OF ABBREVIATIONS AND TERMS.** Abbreviations and terms used in this regulation are explained in the glossary.
5. **RESPONSIBILITIES.** The United States Air Force, Korea (USAFK) Director for Plans, is the single point of contact (POC) for coordinating armistice approval and disapproval of USAF deployments to ROK ABs. The Commander, U.S. Naval Forces, Korea (USNFK) is the single POC for coordinating armistice approval and disapproval of U.S. Navy (USN) and U.S. Marine Corps deployments to ROK ABs and airfields. The Commander, Eighth United States Army (EUSA), G3, is the single POC for coordinating armistice approval and disapproval of U.S. Army deployments to ROK ABs. The Commander, USNFK and EUSA, G3, will coordinate use of USAF bases, collocated operating bases (COBs) and ROK Air Force (AF) controlled ABs through the USAFK Director for Plans. The USAFK Director for Plans and the Commander, EUSA, G3, will coordinate use of ROK Navy (ROKN) controlled ABs through the Commander, USNFK. The Director for Plans, USAFK, and the Commander, USNFK, will coordinate use of U.S. Army controlled airfields through the Commander, EUSA, G3. All POCs will coordinate use of ROKAF controlled airfields through the Chief of Staff, ROK Army Aviation, Seoul, Korea.

## Section II. COORDINATION REQUIREMENTS

6. **MISSIONS REQUIRING COORDINATION.** Units flying aircraft to ABs in the ROK that intend to remain overnight, operate from, or use the AB facilities, must have prior coordination and approval through the applicable POC. Exceptions to this policy are as follows:

**USFK Reg 95-5**

- a. Air Mobility Command (AMC) channel traffic.
- b. AMC air evacuation flights.
- c. AMC special assignment airlift missions that operate into USAF bases and COBs using USAF facilities and AMC traffic personnel, and other ROK ABs if the special assignment airlift mission user has received approval from the controlling headquarters for use of the facilities.
- d. Aircraft deployed to SAFE HAVEN bases in support of typhoon evacuation plans.
- e. Proposed deployments to Osan AB or to any COB must be coordinated thru 51 IG and the 51 WG deployment working group.

**7. PERSONNEL DEPLOYMENTS.** All U.S. personnel deploying to or through USAF bases, COBs, or to other ABs in the ROK, require prior coordination and approval through the applicable POC.

**8. FLIGHTS TO REPUBLIC OF KOREA AIR BASES.** All units flying aircraft to ROK ABs will provide flight advisories (addressed in accordance with (IAW) appendix A, B, or C, as applicable) no less than 96 hours before the planned arrival times. Exceptions to this policy are as follows:

- a. AMC channel traffic
- b. AMC air evacuation flights
- c. Aircraft deployed to SAFE HAVEN bases in support of typhoon evacuation plans.

**9. PREPLANNED EMERGENCY DIVERT BASES.** All units requiring designated ROK emergency divert ABs will send an advisory message addressed IAW appendix A, for USAF units; appendix B, for USN and Marine units; or appendix C, for U.S. Army units. Include the number and type aircraft, dates and times of vulnerability, and type of ordnance being carried, if applicable. This message must arrive no less than 96 hours before the first area flight. Use of preplanned divert bases without U.S. security personnel will not be authorized when classified equipment or ordnance is onboard. In-place USAF security forces exist at Osan AB and Kunsan AB only. Units deploying to COBs/ROK Air Force (AF)-only bases with aircraft requiring U.S. sentries for physical security must deploy with their own security force.

**Section III. RESPONSIBILITIES OF DEPLOYING UNITS**

**10. UNIT DEPLOYMENT REQUESTS.** All units deploying aircraft or personnel to ABs in the ROK will comply with the requirements in the following paragraphs as they apply to the particular unit's deployment. Failure to meet the deadlines established for requests may result in limited availability of requested

support and services or the disapproval of the deployment due to insufficient resources or time to effect required coordination. Requests for deployment to ABs in the ROK should be addressed IAW appendix A, for USAF units; appendix B, for USN and Marine units; and appendix C, for U.S. Army units. The name of a unit POC who is knowledgeable about the deployment and will be available before, during, and after the event will be provided in all requests and advisory messages. Any changes to deployment and redeployment dates, number, and type of aircraft or personnel, or purpose of the deployment, require hard copy coordination before execution.

**11. COMPLIANCE WITH UNITED STATES AIR FORCE FOREIGN CLEARANCE GUIDE AND FLIGHT INFORMATION PUBLICATIONS.** The deploying unit is responsible for complying with the requirements of the Foreign Clearance Guide with respect to the requirements for aircraft and personnel entering the ROK. They will also comply with flight information publications (FLIPs) and notices to airmen with respect to operational restrictions at the prospective deployment base unless specific permission to deviate has been granted by the controlling authority. The operator of aircraft deploying personnel is responsible for complying with the above requirements. Units deploying to COBs must insure customs clearance. Deploying units POCs should coordinate with the nearest U.S. main operating base to the deployment location for military customs support. Unloading munitions/ammunition for security forces, for example, must be treated as a separate issue to be coordinated by deploying unit POCs and host nation counterparts.

**12. CONTENT AND TIMING OF REQUESTS.** Units requesting to deploy and operate aircraft from ROK ABs will forward a request at least 60 days before the desired deployment date. This request will contain, as a minimum, the following information:

- a. Deploying unit identification.
- b. Purpose of the deployment. Include the identification of the units being supported.
- c. Requested deployment dates, to include prepositioning and departure.
- d. Requested deployment base and alternates if the preferred base is not available.
- e. Number and type of aircraft. If not firm, provide estimate.
- f. Range, drop zone, landing zone, or airspace zone requirements, takeoff times, times over target, and recovery times. Identify additional operating bases (other than the beddown base) if required.
- g. Special needs or considerations associated with the unit or aircraft.

**NOTE:** Deployment requests received between 60 days and 30 days before the requested deployment date may not allow sufficient time to coordinate the

**USFK Reg 95-5**

required support and services (for example, range time, communications, etc.). If requests are received later than 30 days before the deployment date, it violates ROK Air Force requirements and they may be disapproved with little prior notice to the requestor.

**13. AIRSPACE BRIEFINGS.** All USAF, USN, or U.S. Marine Corps fighter, reconnaissance, forward air controller, and nonheater airlift crews will be briefed on Korean airspace procedures before to conducting operational missions in Korea. This requirement does not apply to theater airlift crews (unless requested), AMC channel missions, point-to-point operations on airways, or flights to maintain flying proficiency. The USAF briefing office of primary responsibility will normally be identified in the deployment approval message. Circumstances may require the requesting unit to have a deployed aircrew representative receive this briefing at a base other than the beddown base. The following items will be included in the briefing:

- a. The P-518/buffer zone procedures.
- b. Restricted or prohibited areas.
- c. Military operation area training areas.
- d. Low-level structures.
- e. Range use (if applicable).
- f. The air traffic control system.
- g. Dissimilar air combat training and Korean rules of engagement.
- h. Flight safety.
- i. Other local operating procedures (as required).

**14. UNITED STATES AIR FORCES KOREA LOGISTICS SUPPORT.** Units requiring USAFK logistics support will forward requirements by message to 51 LSS Osan AB ROK//IGLX// for deployments to Osan AB or 8 LSS, Kunsan AB ROK//LGX// for deployments to Kunsan AB. Those units requiring support at COBs on the Korean peninsula should forward their requests for support to 51COBSS Osan AB ROK//LGX// and include COMUSKOREA SEOUL DOR//FKJ4-P-0// as an information addressee. Requests should be received not less than 60 days before the requested deployment date. The request should include the following information:

- a. Billeting requirements (officers and enlisted by gender).
- b. Subsistence requirements.
- c. Ground support equipment requirements.

d. Vehicle requirements (by functional area, justified to support war reserve material release requirements IAW PACAFR 400-24). If a vehicle is to be used off base, state whether or not the supported unit (for example, airlift use) has been contacted to provide off base vehicle support.

e. Fuel requirements (pounds used per aircraft per day and whether or not the aircraft will require refueling after normal duty hours).

f. Work space requirements (specific facilities for operations, maintenance, and others).

g. Communications requirements. All communications requirements must be submitted to the 51 CS, ATTN: SCPCC, Unit #2056, APO AP 96278-5000, with an information copy to the 51 COBSS, ATTN: SCX, Unit #2056, APO AP 96278-5000.

h. Munitions support requirements. Include vehicles, trailers, test equipment, etc.

**NOTE:** Only USAF units are authorized use of USAF war reserve material without prior approval from Pacific Operations/Exercise Logistics (PACOPS/LGXW). Any USAF units that desire to be supported with war reserve material must provide the host base with an obligation authority to cover reconstitution expenses. Failure to provide an obligation authority will result in denial of permission to use war reserve material.

**15. UNITED STATES AIR FORCES KOREA INTEGRATED TASKING ORDER SUPPORT.**

Agencies or units requesting USAFK support in writing integrated tasking orders (ITOs) for exercises or operational readiness inspections will provide the 603 ACCS/DOJ (INFO: USAFK Director for Plans (DOX), Osan AB, ROK) the following information a minimum of 45 days before the deployment date:

- a. Unit(s) to be tasked.
  - (1) Type(s) and number(s) of aircraft to be deployed.
  - (2) Location(s) of deployed aircraft and type and number of aircraft at each location.
- b. Sortie requirements for sustained operations.
  - (1) Sortie rates and total number of sorties needed.
  - (2) Minimum turnaround time.
  - (3) Number of day and night sorties.
  - (4) Duration of day or night sorties.
  - (5) Desired sortie flow schedule.

**USFK Reg 95-5**

- (6) Number of air-to-air refueling sorties.
- (7) Maximum number of sorties for the first launch.
- (8) Estimated number and types of missions desired.
- (9) Ordnance load, standard conventional load, or plain language.
- (10) Training range and airspace requirements.
- (11) Special range requirements (for example, live drops).
- (12) Limiting factors affecting a unit's deployment

c. Sortie requirements for special or surge operations. Provide the information requested in subparagraph 15b, if applicable.

d. Call signs to be used.

e. Any special operating instructions to be included in the ITO.

f. A list of trusted agents for the exercise, if applicable.

g. The requesting organization will identify a POC and a primary ITO writer and coordinator for the exercise. Normally, this individual will be required at USAFK/DOX, Osan AB, ROK, at least 2 weeks before the exercise being conducted. This allows time to accomplish the final coordination and prepare the final ITO with 603 ACCS/DOJ assistance. This individual will remain on station for the duration of the exercise and act as the on-the-scene, daily ITO writer and coordinator.

**16. UNITED STATES AIR FORCES KOREA INTELLIGENCE SUPPORT.** Units requiring USAFK intelligence support will forward requirements by message to 7AF/Osan AB KOR//DOI/DOIP// not less than 45 days before the requested deployment date or as specified in the unit's host tenant support agreement with the 51st Wing or 8th Fighter Wing, if applicable. The request should include the following information:

- a. Work space requirements.
- b. Communications requirements.
- c. Classified/unclassified storage requirements.
- d. Transportation requirements.
- e. Communications security requirement.

f. Clearances passed from home-base Special Security Officer to the 7AF Special Security Officer.

**NOTE:** UHAF deploying units should arrive with the necessary war reserve material IAW PACAFR 200-10.

The proponent of this regulation is the Office of the Director for Plans, USAFK. Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) to the Commander, USFK, ATTN: USAFK Director for Plans, Unit #2036, APO AP 96278-5000.

## GLOSSARY

## Section I. ABBREVIATIONS

AB	air base
AMC	Air Mobility Command
COB	collocated operating base(s)
EUSA	Eighth United States Army
FLIP	flight information publication(s)
IAW	in accordance with
ITO	integrated tasking order
POC	point of contact
ROK	Republic of Korea
ROKA	Republic of Korea Army
ROKAF	Republic of Korea Air Force
ROKN	Republic of Korea Navy
U.S.	United States (of America)
USAF	United States Air Force
USAFK	United States Air Force, Korea
USN	United States Navy
USNFK	United States Naval Forces, Korea

## Section II. TERMS

**COB(s).** A Korean AB without a permanent United States Air Force (USAF) operational unit during armistice. During armistice, except as otherwise agreed, the USAF will maintain facilities and areas reserved for the exclusive use of USAF forces. COB activation during armistice will be as mutually agreed to by ROKAF and USAF authorities. This requires a minimum of 30 days advance notice to the ROKAF. (Refer to paragraph 12 for USAFK notification.)

**ROK AB.** All military ABs and airfields in the ROK.

**USFK Reg 95-5**

**ROKA ABs and airfields.** ABs or airfields where the ROKA is the controlling authority.

**ROKAF AB.** ABs where the ROKAF is the controlling authority.

**ROKN AB.** ABs where the ROKN is the controlling authority.

**Trusted agent.** The individual designated to coordinate support for inspection teams or exercise controllers before and during operational readiness inspections or exercises.

**U.S. Army ABs and airfields.** ABs or airfields where EUSA is the controlling authority.

**USAF ABs.** ABs where the USAFK is the controlling authority.
