

PET TRANSPORTATION WITHIN KOREA

Transportation of pets from the Airport to the 19th Human Resources Company, Camp Humphreys, and from Camp Humphreys to Service Member's final destination after in-processing:

Pets may be allowed to travel on the passenger section of the bus ONLY if they are enclosed in a pet carrier/crate, and also if the pet carrier/crate can fit inside the bus (carrier/crate dimension not to exceed 32"L X 21"W X 25"H), otherwise you must contact a pet transporter to transport the pets to the next destination (at your expense). **Pets are not authorized to ride under the bus.** SM's unit can help with further transportation coordination if needed.
